

HOST**PURPOSE**

Specifies the host manufacturer and model.

DESCRIPTION

This command receives almost nil usage. The implementors of DATAPLOT on your computer should have adjusted the host specification to the correct setting.

SYNTAX

HOST <manufacturer> <model>
where <manufacturer> identifies the host;
and <model> identifies the specific model number.

EXAMPLES

HOST IBM 3033
HOST VAX 11/780
HOST UNIVAC 1100/80
HOST PERKIN-ELMER 3240

NOTE

The HOST command with no arguments reverts the host to default.

DEFAULT

The default host is implementation dependent.

SYNONYMS

None
