

PRINTER TYPE

NOTE

***** This command is not yet operational *****

PURPOSE

Specifies whether the output from the / PRINTER command is generated as an ASCII text file or as a Postscript file.

DESCRIPTION

The / command re-executes saved commands (see the documentation for the SAVE command for details). The / PRINTER command re-executes saved commands and also re-directs the output to the printer. The PRINTER TYPE command specifies whether this output is sent to the printer as a plain ASCII text file or is reformatted into a Postscript format.

SYNTAX

PRINTER TYPE <ASCII/POSTSCRIPT>

where ASCII specifies a plain ASCII text file and POSTSCRIPT specifies a Postscript formatted file.

EXAMPLES

PRINTER TYPE ASCII

PRINTER TYPE POSTSCRIPT

DEFAULT

The output is sent as a plain ASCII text file.

SYNONYMS

None

RELATED COMMANDS

/ PRINTER	=	Re-executes saved commands and re-directs the output to a printer.
